REGISTERED & COMMERCIAL GALLOWAY HERD DISPERSAL

For Donald A. Robertson of Phelpsston, ON

Cows have been exposed to Registered Galloway Bulls and will be preg checked on November 20/09 by Newry Vet Service. Cows are treated with Ivomec. They have been raised outside on grass and fed supplement hay.

It will be at the buyer's expense and responsibility to transfer pedigrees on the registered cows.

WOODFIELD CATTLE CO. LTD.
REGISTERED POLLED HEREFORD HERD DISPERSAL
For Fred & Penni Hyde of Milton, ON

We have decided to sell our herd of registered Herefords, for a number of reasons, the main one being, we have decided to start our bucket list while we can still enjoy doing it. Our lives are never certain, and as you watch young seniors leaving this world before their time is up and never getting a chance to fulfill their dreams, we realized that we were going to start early to fulfill some of our dreams.

We have worked hard over the past 10 years and enjoyed every minute of it, there are no better animals to work with than the Hereford breed. We are selling 16 heifers, some we bought earlier this year. They have all been on pasture all Summer with a bit of grain every day. They were going to be bred in the Fall, however when we made our decision we left them open to fit into any program. We also have a bred cow due in January as well as cows with calves at side, plus a Registered breeding bull that we bought specifically for the heifers, and another purebred bull not registered. All animals have been vaccinated with Bovishield Live Vaccine, and Ivomeced. All bull calves have been castrated with elastics late October. Our guest consignor Maple Ridge Farm of Fergus sends 4 cow/calf pairs, a mature Registered sire and 10 stockers. The cow/calf pairs and the bull have not had any Fall Winter inoculations. It will be at the buyer's expense and responsibility to transfer any pedigrees on the registered cows.

Since we won't be needing our Hi-Hog Cattle Squeeze Chute, it will be on offer at Carson's Machinery Consignment Sale on Friday, November 27th. Check out the pictures online at www.davidcarson.on.ca

On behalf of ourselves and our guest consignor, we wish all of the buyers the very best
with the animals that they purchase today!

Fred & Penni Hyde
Woodfield Cattle Co. Ltd.

This bull is out of a Glen Poundmaker sired by a son of the U.S. Champion, 'Star SS Thunder Lt 62J'. He produces easy calves which are in the mid range for birth wights [between 75 and 85 lbs.]. His calves are bright and do well on a natural pasture and hay diet. His conception rate has been 100% two years running. He is the sire of the the 10 stockers selling.

LOT 82 COMMERCIAL HEREFORD COW

ET: 706

Exposed to Tricky Dick 17P

This cow is not registered. She lacks body mass yet can raise a decent bull calf #48. She was bred accidentally about nine months before her scheduled time. We think this factor accounts for her lack of mass.

This is the daughter of Big Mama. She is an excellent mother and puts everything into her calf. Look at the size of this bull calf. She is what we call a Doer.
