### CONSIGNOR: DON CEASAR OF LIONS HEAD

Heifers are bred to proven easy calving Leachman bulls with birth weights of 78lbs & 80lbs (also selling). Heifers have been preg checked by Dr. Bryan Hicks a few weeks ago at 7 to 9 months and the cow (Lot 802) was bred 6-7 mos. They have been double Vaccinated with Bovi Gold twice from Birth and treated with Scourguard. These heifers are from Don's cow herd which was established in 1980 and the only reason for selling is that Don is getting out of cows. This is a tremendous group of heifers with good feet, and who are wintered outside!

These cows have been raised by Noah (Age 14) and his brothers. They are a strong hearty breed, free range in the bush in the summer and in the warm barn in winter. Cows range from 2-5 years old and are bred to the Black Galloway Bull selling. They were preg checked here on March 15th by the Linwood Vet Service.
