

Bennville Limousin Consignments to June 15th Beef Sale

With the dismal spring we have been having so far, we hope that everyone is at least getting to enjoy putting some cows out to grass and having good luck with their herd. We have sent a couple of nice Registered breeding bulls ready to get to work on your herd, and a couple of registered open heifers from great cow families that are ready to fit into your summer or fall calving programs. All have been vaccinated in a modified live program and have been Ivomec'd. **Registration papers can be transferred at the buyers request:** please contact us after the sale if you would like to have papers transferred. For some more info on us and our breeding program before the sale, please visit our website at www.bennvillelimousin.com, or give Greta a call at 905-865-2529 or email haupt.greta@gmail.com

This is a nice and correct young heifer out of one of our oldest cows that has been working hard for us for many years. Her dam is a top quality producer and always does her job, with a great quiet disposition on top. She carries some of the top AI genetics in the breed, with both Wulf's Klint and Wulf's Xtractor in her pedigree. She is sure to make an honest and hard working cow and is ready for breeding to fit into your program.

BENNVILLE AGA LUZI
BENNVILLE C LUZIA

Another correct young heifer, this time out of our Luzi family. Her dam is a moderate framed and functional cow, with a great udder underneath; a trait that really runs in this family. This heifer looks poised to follow in her mom's footsteps and make a great cow for someone. She's ready to breed to fit into a summer or fall calving program.

This February bull is ready to go to work for you breeding. He comes from a very strong dam line in our herd, that are great calf producers with plenty of muscling and growth. This is evident in his strong growth and carcass numbers, in his Limo EPDs, coming in within 10-15% in the breed for weanling and yearling weight, marbling, fat, and ribeye, and within the top 2% for yearling gain. He also has had a quiet and agreeable disposition to work with.

Double Polled

If growth is what you're after, this boy is for you. He has impressive weaning and yearling weight EPDs, and came in at a very nice 1302 lb adjusted yearling weight. His dam, Bennville Chanson, a TMF Arizona from our Cayley cow family has impressive EPDs, ranking in the top 2% of females in the breed for yearling weight, and top 3% for weaning weight. Again, he is another docile and easy to work with bull, now ready to go to work breeding for you!

Bennville A Chanson, dam of AFA 20F
