This stylish black heifer is one of a set of twins (with AFA 19G) out of a first time calver that we purchased as a bred heifer from New Frontier Limousin (pictured above). The dam had the twins all on her own, and had them up and drinking in no time, caring for both without any fuss, with amazing docility. We hope she has passed her amazing mothering ability on to both of these heifers. She has great EPDs straight across the board.

**Adjusted BW 80 lbs      Adjusted WW 706 lbs      Adjusted YW 821 lbs**

This is a stylish animal out of a tried and true dam who is one of the best in the herd. The mother line is very strong, also including Bennville K Pina Colada, who was designated an Elite Dam by the Canadian Limousin Association. This heifer takes after her mom, with plenty of depth and growth, and should turn into a great producing cow.

This is a functional heifer out of a first time calver who did a great job raising her calf. She comes out of a steady producing cow family, with good feet and legs, and nice udders who can be depended on to do their jobs each year.

**Adjusted BW 80 lbs      Adjusted WW 578 lbs**

This is a nice heifer out of a first time calver that comes out of a powerful cow family. Bennville Yao was a past 4-H animal who did great in the show ring and has been producing great offspring as well. She is too young for us to fit into our breeding program, but this is great opportunity to gain genetics from a very strong family.

**Weight on Feb 22: 1202 lbs**

This is a moderate framed bull, with great muscle expression, wide-topped and big rumped. He is out a powerful cow who has produced some outstanding bulls, and that is now 16 years old, and has never missed a year, with her 15<sup>th</sup> calf at foot now; it just doesn't get more dependable than that! He has a nice set of EPDs; his low BW makes him a nice choice for heifers, while still having average weaning and yearling weight EPDs.

This is another correct and well muscled bull, this time out of our Cayley cow family. His dam, Bennville Cool Zab, is a moderate framed cow, with a super udder that consistently produces animals that are as well muscled and deep as she herself is. This boy boasts another super set of EPDs, coming in well above average for weaning and yearling weight, as well as for carcass EPDs.
